

## Western Digital Corporation

Takeaways from investor meetings with  
CEO & CFO

Maintain Rating: BUY | PO: 70.00 USD | Price: 64.30 USD

## All signs pointing to a strong cyclical recovery

We hosted investor meetings with WDC CEO, David Goeckeler; CFO, Wissam Jabre; and VP, Financial Planning, Analysis & IR, Peter Andrew in New York 2/28-2/29 and walked away increasingly comfortable that several positive catalysts lie ahead for shares of WDC. In particular we see (1) Continuing progress towards a separation of the HDD and Flash business that should unlock shareholder value, (2) improving Nearline demand that should continue to drive HDD gross margins higher, (3) confidence that UltraSMR can effectively compete against HAMR through high 30TBs capacity ranges, (4) Flash capacity investments to remain constrained at least until 35-37% gross margins are exceeded, (5) WDC (storage) can be a second order beneficiary of AI. Maintain Buy.

## HDD margins have a lot of runway

Mgmt. noted that using ePMR and UltraSMR could allow WDC to scale to the upper 30TBs range and expect their solution to be cost advantaged relative to similar capacity HAMR drives. Given the capacity reductions (assembly) and recovering demand from Cloud, HDD gross margins have significant room for upside. Given the lack of headwinds posed by declining client drives (through most of the last decade), there is room for the HDD industry to realize much better long-term returns. With gross margins already approaching close to 30% (ex-underutilization charges), in our opinion gross margins could exceed 35% as revenues continue to recover from depressed levels.

## Disciplined approach to managing Flash capacity

Mgmt remains very deliberate in ensuring that incremental capacity will not be added in Flash until 35-37% gross margins are exceeded for a couple of qtrs with TTM margins tracking roughly 10 points below. Given the significant industry wide capacity rationalization, we view a multi-qtr recovery in flash margins as a high probability event with margins exceeding the last peak.

## Analyst day to discuss cap structure of separate entities

Closer to the separation of the HDD and Flash businesses, WDC will hold an analyst day to discuss the capital structure and long term views for the growth and margin profiles. In our opinion HDD's could see operating margins in the high teens and Flash could see a mid to high teens operating margin based on overall gross margin trends.

## Company Sector

IT Hardware

## Company Description

Western Digital Corporation (WDC) designs, manufactures and markets hard disk drives for use in enterprise storage, servers, desktop and laptop computers, and consumer electronic devices. It also has a growing solid state drive and storage systems portfolio, and is currently the third largest enterprise SSD manufacturer. The company sells its products directly to OEMs, as well as distributors and retailers and its production capabilities are vertically integrated.

## Investment Rationale

WDC should benefit from share gains in the Enterprise Capacity/Nearline HDD market and from more stability in the NAND market. We see the stock as inexpensive at current levels. Buy.

## Stock Data

Average Daily Volume 7,883,998

## Quarterly Earnings Estimates

	2023	2024
Q1	0.20A	-1.76A
Q2	-0.42A	-0.69A
Q3	-1.37A	0.14E
Q4	-1.98A	1.14E

## Price objective basis & risk

### Western Digital Corporation (WDC)

Our PO of \$70 is based on 9x C25E EPS of \$8.16. This multiple is inline with the HDD/SSD historical average of 9x, which we view as justified as it balances near-term sluggish end markets offset by longer-term improving trajectory of the business both in HDDs and in NAND. WD is a cyclical company. Near-term estimates are lower given lower demand from weaker macro.

Downside risks are: (1) unit declines in desktops and notebooks (2) worse than expected high-capacity HDD industry, (3) faster declines in NAND Flash pricing, (4) higher NAND manufacturing cost from either stronger Yen, or manufacturing yield issues, (5) lower royalty revenue from NAND licensing, (6) degradation of cash position and lower free cash flow and (7) failure of strategic actions to drive incremental value

Upside risks are: (1) significant pickup in high capacity/nearline HDDs, which could drive ASPs and gross margin higher, (2) share gains in enterprise NAND flash SSDs, (3) consumer PC refresh cycle, (4) improved free cash flow generation and faster debt pay down and (5) strategic options that drive the stock higher.

<sup>R1</sup> Issuers that were investment banking clients of BofA Securities or one of its affiliates within the past 12 months. For purposes of this Investment Rating Distribution, the coverage universe includes only stocks. A stock rated Neutral is included as a Hold, and a stock rated Underperform is included as a Sell.

**FUNDAMENTAL EQUITY OPINION KEY:** Opinions include a Volatility Risk Rating, an Investment Rating and an Income Rating. **VOLATILITY RISK RATINGS**, indicators of potential price fluctuation, are: A - Low, B - Medium and C - High. **INVESTMENT RATINGS** reflect the analyst's assessment of both a stock's absolute total return potential as well as its attractiveness for investment relative to other stocks within its Coverage Cluster (defined below). Our investment ratings are: 1 - Buy stocks are expected to have a total return of at least 10% and are the most attractive stocks in the coverage cluster; 2 - Neutral stocks are expected to remain flat or increase in value and are less attractive than Buy rated stocks and 3 - Underperform stocks are the least attractive stocks in a coverage cluster. An investment rating of 6 (No Rating) indicates that a stock is no longer trading on the basis of fundamentals. Analysts assign investment ratings considering, among other things, the 0-12 month total return expectation for a stock and the firm's guidelines for ratings dispersions (shown in the table below). The current price objective for a stock should be referenced to better understand the total return expectation at any given time. The price objective reflects the analyst's view of the potential price appreciation (depreciation).

Investment rating	Total return expectation (within 12-month period of date of initial rating)	Ratings dispersion guidelines for coverage cluster <sup>R2</sup>
Buy	≥ 10%	≤ 70%
Neutral	≥ 0%	≤ 30%
Underperform	N/A	≥ 20%

<sup>R2</sup> Ratings dispersions may vary from time to time where BofA Global Research believes it better reflects the investment prospects of stocks in a Coverage Cluster.

**INCOME RATINGS**, indicators of potential cash dividends, are: 7 - same/higher (dividend considered to be secure), 8 - same/lower (dividend not considered to be secure) and 9 - pays no cash dividend. **Coverage Cluster** is comprised of stocks covered by a single analyst or two or more analysts sharing a common industry, sector, region or other classification(s). Taiwan Readers: Neither the information nor any opinion expressed herein constitutes an offer or a solicitation of an offer to transact in any securities or other financial instrument. No part of this report may be used or reproduced or quoted in any manner whatsoever in Taiwan by the press or any other person without the express written consent of BofA Securities.

This document provides general information only, and has been prepared for, and is intended for general distribution to, BofA Securities clients. Neither the information nor any opinion expressed constitutes an offer or an invitation to make an offer, to buy or sell any securities or other financial instrument or any derivative related to such securities or instruments (e.g., options, futures, warrants, and contracts for differences). This document is not intended to provide personal investment advice and it does not take into account the specific investment objectives, financial situation and the particular needs of, and is not directed to, any specific person(s). This document and its content do not constitute, and should not be considered to constitute, investment advice for purposes of ERISA, the US tax code, the Investment Advisers Act or otherwise. Investors should seek financial advice regarding the appropriateness of investing in financial instruments and implementing investment strategies discussed or recommended in this document and should understand that statements regarding future prospects

may not be realized. Any decision to purchase or subscribe for securities in any offering must be based solely on existing public information on such security or the information in the prospectus or other offering document issued in connection with such offering, and not on this document.

Securities and other financial instruments referred to herein, or recommended, offered or sold by BofA Securities, are not insured by the Federal Deposit Insurance Corporation and are not deposits or other obligations of any insured depository institution (including, Bank of America, N.A.). Investments in general and, derivatives, in particular, involve numerous risks, including, among others, market risk, counterparty default risk and liquidity risk. No security, financial instrument or derivative is suitable for all investors. Digital assets are extremely speculative, volatile and are largely unregulated. In some cases, securities and other financial instruments may be difficult to value or sell and reliable information about the value or risks related to the security or financial instrument may be difficult to obtain. Investors should note that income from such securities and other financial instruments, if any, may fluctuate and that price or value of such securities and instruments may rise or fall and, in some cases, investors may lose their entire principal investment. Past performance is not necessarily a guide to future performance. Levels and basis for taxation may change.

This report may contain a short-term trading idea or recommendation, which highlights a specific near-term catalyst or event impacting the issuer or the market that is anticipated to have a short-term price impact on the equity securities of the issuer. Short-term trading ideas and recommendations are different from and do not affect a stock's fundamental equity rating, which reflects both a longer term total return expectation and attractiveness for investment relative to other stocks within its Coverage Cluster. Short-term trading ideas and recommendations may be more or less positive than a stock's fundamental equity rating.

BofA Securities is aware that the implementation of the ideas expressed in this report may depend upon an investor's ability to "short" securities or other financial instruments and that such action may be limited by regulations prohibiting or restricting "shortselling" in many jurisdictions. Investors are urged to seek advice regarding the applicability of such regulations prior to executing any short idea contained in this report.

Foreign currency rates of exchange may adversely affect the value, price or income of any security or financial instrument mentioned herein. Investors in such securities and instruments, including ADRs, effectively assume currency risk.

BofA or one of its affiliates is a regular issuer of traded financial instruments linked to securities that may have been recommended in this report. BofAS or one of its affiliates may, at any time, hold a trading position (long or short) in the securities and financial instruments discussed in this report.

BofA Securities, through business units other than BofA Global Research, may have issued and may in the future issue trading ideas or recommendations that are inconsistent with, and reach different conclusions from, the information presented herein. Such ideas or recommendations may reflect different time frames, assumptions, views and analytical methods of the persons who prepared them, and BofA Securities is under no obligation to ensure that such other trading ideas or recommendations are brought to the attention of any recipient of this information. In the event that the recipient received this information pursuant to a contract between the recipient and BofAS for the provision of research services for a separate fee, and in connection therewith BofAS may be deemed to be acting as an investment adviser, such status relates, if at all, solely to the person with whom BofAS has contracted directly and does not extend beyond the delivery of this report (unless otherwise agreed specifically in writing by BofAS). If such recipient uses the services of BofAS in connection with the sale or purchase of a security referred to herein, BofAS may act as principal for its own account or as agent for another person. BofAS is and continues to act solely as a broker-dealer in connection with the execution of any transactions, including transactions in any securities referred to herein.

#### **BofA ESGMeter Methodology:**

ESGMeter is a proprietary metric based on quantitative analysis and fundamental analyst inputs that reflects our assessment of a company's Environmental, Social and Governance-related attributes. The ESGMeter is intended to indicate a company's likelihood of experiencing stronger financial stability (higher return on equity and lower earnings and price volatility) over the next three years relative to peer group. There are three ESGMeter levels - Low, Medium, and High - which indicate whether a company has attributes most likely to translate into superior financial stability (in the case of a High level) or weaker financial stability (in the case of a Low level) over the next three years relative to its peer group. A Medium level suggests that a company exhibits ESG characteristics that are likely associated with financial stability results in line with its peer group over the next three years. Full details of our methodology, financial stability definition and disclaimers are available at [BofA ESGMeter methodology](#). ESGMeter is not indicative of a company's future stock price performance and is not an investment recommendation or rating. ESGMeter is independent of the BofA Global Research fundamental equity analyst's investment rating, volatility risk rating, income rating or price objective for that company.

BofA Securities is under no obligation to update this information and BofA Securities ability to publish information on the subject issuer(s) in the future is subject to applicable quiet periods. You should therefore assume that BofA Securities will not update any fact, circumstance or opinion contained herein.

Subject to the quiet period applicable under laws of the various jurisdictions in which we distribute research reports and other legal and BofA Securities policy-related restrictions on the publication of research reports, fundamental equity reports are produced on a regular basis as necessary to keep the investment recommendation current.

Certain outstanding reports or investment opinions relating to securities, financial instruments and/or issuers may no longer be current. Always refer to the most recent research report relating to an issuer prior to making an investment decision.

In some cases, an issuer may be classified as Restricted or may be Under Review or Extended Review. In each case, investors should consider any investment opinion relating to such issuer (or its security and/or financial instruments) to be suspended or withdrawn and should not rely on the analyses and investment opinion(s) pertaining to such issuer (or its securities and/or financial instruments) nor should the analyses or opinion(s) be considered a solicitation of any kind. Sales persons and financial advisors affiliated with BofAS or any of its affiliates may not solicit purchases of securities or financial instruments that are Restricted or Under Review and may only solicit securities under Extended Review in accordance with firm policies.

Neither BofA Securities nor any officer or employee of BofA Securities accepts any liability whatsoever for any direct, indirect or consequential damages or losses arising from any use of this information.
