

Bruker Corporation

4Q23 First Look: FY24 organic sales guide of 5-7% in-line, EPS guide a bit below

Maintain Rating: BUY | PO: 85.00 USD | Price: 70.60 USD

4Q23:16% organic growth; Adj. EPS +8% above Street

Bruker (BRKR) released full 4Q23 results today, as the company had released preliminary 4Q results and provided a broad view on '24 in January ([see here: 1/8/24 note](#)). 4Q sales of \$855mn were ahead of our revised \$830mn est. F/X was a +2% tailwind (vs BofAe +1%) and M&A contributed +3% (vs BofAe +4%), translating to organic growth of +15.9% vs. our +12.1% est. Specifically, Bruker Scientific Instruments (BSI) segment grew +15.9% vs. our +12% estimates. The strength in the BSI segment partially stemmed from the placement of the three GHz NMR's during the quarter, which can each have a price tag of up to \$10mn. Adj. OpM was 18.1% in-line with BofAe but down -290 bps y/y on F/X and deal dilution, while Adj. EPS were \$0.70 vs. BofAe/Street \$0.66/\$0.65.

FY24 guide: +5-7% core growth; Adj. EPS \$2.71-2.76

BRKR initiated formal FY24 guidance, calling for total sales of \$3.23-3.29bn (+9-11% y/y) on a reported basis (vs BofA/Street estimate of \$3.17bn/\$3.13bn). Organic growth is expected to be +5-7% (vs. our/Street ~6% estimate). F/X is expected to be a +1% tailwind (vs our -0.4% headwind) and competed M&A is expected to contribute +3%, in-line with our estimate. The M&A contribution does not yet include previously announced deals that have not yet closed (e.g., Chemspeed & ELITech), which could add ~\$100mn to sales, although the profitability of these businesses is unknown. While the top-line was in line with our view, Adj. OpM is expected to contract ~80bps y/y (vs. BofAe -50bps), due to a combination of transitory headwind of 130bps due to F/X and M&A, offsetting organic expansion of +50bps. This flows down to Adj. EPS range of \$2.71-2.76, which is ahead of BofAe \$2.65 but below Street \$2.77.

Thoughts on shares; Call at 8:30 am

Overall, BRKR's 4Q results and FY24 top-line guide were impressive given peer results, as the company's analytical instruments business remains strong despite tougher comps in 2024. While the margin hit from deals was a bit more than expected, we think it is prudent for BRKR to be investing for the future at a time when some peers are hesitating. On the call, the key focus will be on the order book. In January, Mgmt. noted that the BSI book-to-bill (B2B) was close to 1. Also, given BRKR's higher exposure to Academic labs we look for color on the health of this end market given global budget pressures. We maintain our Buy rating, as we believe that BRKR has one of the best new product portfolios in the Tools peer group and is executing well despite a challenging macro environment. The company will host a conference call at 8:30 am (Public dial-in number: 1-888-437-2685).

Price objective basis & risk

Bruker Corporation (BRKR)

Our \$85 price objective (PO) is based on about 18x our 2025 EBITDA estimate, which is in line with the current life sciences tools peer group median multiple.

Downside risks to our PO are a weaker global economy, continued disruptions from the global Coronavirus outbreak, reductions in academic and government R&D expenditures, slower than expected expansion into new markets, slower-than-expected margin expansion, competition, and integration risks.

Upside risks to our PO are better-than-expected organic sales growth or margin expansion.

Buy	1895	53.62%	Buy	1083	57.15%
Hold	832	23.54%	Hold	454	54.57%
Sell	807	22.84%	Sell	383	47.46%

^{R1} Issuers that were investment banking clients of BofA Securities or one of its affiliates within the past 12 months. For purposes of this Investment Rating Distribution, the coverage universe includes only stocks. A stock rated Neutral is included as a Hold, and a stock rated Underperform is included as a Sell.

FUNDAMENTAL EQUITY OPINION KEY: Opinions include a Volatility Risk Rating, an Investment Rating and an Income Rating. **VOLATILITY RISK RATINGS**, indicators of potential price fluctuation, are: A - Low, B - Medium and C - High. **INVESTMENT RATINGS** reflect the analyst's assessment of both a stock's absolute total return potential as well as its attractiveness for investment relative to other stocks within its Coverage Cluster (defined below). Our investment ratings are: 1 - Buy stocks are expected to have a total return of at least 10% and are the most attractive stocks in the coverage cluster; 2 - Neutral stocks are expected to remain flat or increase in value and are less attractive than Buy rated stocks and 3 - Underperform stocks are the least attractive stocks in a coverage cluster. An investment rating of 6 (No Rating) indicates that a stock is no longer trading on the basis of fundamentals. Analysts assign investment ratings considering, among other things, the 0-12 month total return expectation for a stock and the firm's guidelines for ratings dispersions (shown in the table below). The current price objective for a stock should be referenced to better understand the total return expectation at any given time. The price objective reflects the analyst's view of the potential price appreciation (depreciation).

Investment rating	Total return expectation (within 12-month period of date of initial rating)	Ratings dispersion guidelines for coverage cluster ^{R2}
Buy	≥ 10%	≤ 70%
Neutral	≥ 0%	≤ 30%
Underperform	N/A	≥ 20%

^{R2} Ratings dispersions may vary from time to time where BofA Global Research believes it better reflects the investment prospects of stocks in a Coverage Cluster.

INCOME RATINGS, indicators of potential cash dividends, are: 7 - same/higher (dividend considered to be secure), 8 - same/lower (dividend not considered to be secure) and 9 - pays no cash dividend. **Coverage Cluster** is comprised of stocks covered by a single analyst or two or more analysts sharing a common industry, sector, region or other classification(s). A stock's coverage cluster is included in the most recent BofA Global Research report referencing the stock.

BofA ESGMeter Methodology:

ESGMeter is a proprietary metric based on quantitative analysis and fundamental analyst inputs that reflects our assessment of a company's Environmental, Social and Governance-related attributes. The ESGMeter is intended to indicate a company's likelihood of experiencing stronger financial stability (higher return on equity and lower earnings and price volatility) over the next three years relative to peer group. There are three ESGMeter levels - Low, Medium, and High - which indicate whether a company has attributes most likely to translate into superior financial stability (in the case of a High level) or weaker financial stability (in the case of a Low level) over the next three years relative to its peer group. A Medium level suggests that a company exhibits ESG characteristics that are likely associated with financial stability results in line with its peer group over the next three years. Full details of our methodology, financial stability definition and disclaimers are available at [BofA ESGMeter methodology](#). ESGMeter is not indicative of a company's future stock price performance and is not an investment recommendation or rating.

ESGMeter is independent of the BofA Global Research fundamental equity analyst's investment rating, volatility risk rating, income rating or price objective for that company.
