4Q ahead as DKS continues to invest for growth

Reiterate Rating: NEUTRAL | PO: 225.00 USD | Price: 216.81 USD

4Q ahead on same-store sales & gross margin beat

DKS reported F4Q24 adjusted EPS of \$3.85 (vs. our \$3.27) as same-store sales increased +2.8% (vs. our -1.0%), led entirely by ticket as transactions were flat y/y (see F4Q preview). Gross margin of 34.6% (vs. our 34.0%) reflected 124bps of merchandise margin expansion (as DKS lapped elevated clearance activity last year), lower freight costs, and occupancy cost leverage, which were partially offset by higher shrink.

Raise F25e EPS and model gross margin flat y/y

We raise our F25 adj. EPS estimate to \$13.20 (from \$12.50 & in-line with DKS initial guidance for \$12.85 - \$13.25). We are modeling comps +2% and expect a positive impact to sales in 1H (given calendar shift for 53^{rd} week in 2023) to be offset in 2H. We model ~80bps y/y decline in F1Q gross margin given higher shrink (which DKS will have anniversary beginning in F2Q), elevated marketing/preopening expense to support 2 House of Sport openings (in Boston & Pittsburgh), and a higher tax rate vs. last year. Both gross margin and SG&A are expected to be ~flat y/y in F25 as DKS reduces discretionary costs and benefits from business optimization initiatives (which were completed in F4Q).

DKS expects to increase square footage by ~2% in 2024

DKS expects to increase its square footage by ~2% in 2024 which includes the addition of 8 House of Sport and 16 Next Generation 50K stores (which both operate at higher sales and profitability levels vs. legacy stores). DKS remains confident in its target of 75-100 House of Sport locations by 2027 (the majority of which will be relocations/conversions). We expect DKS will continue to increase capital investments moving forward as it looks to continue to remodel & open units (15 House of Sport stores expected in 2025), acquire real estate (including evaluating potential sale-leaseback opportunities), and open new regional distribution center in 2026.

Reiterate Neutral on balanced Risk/Reward

We reiterate our Neutral rating as we believe near-term consumer macro headwinds are offset by DKS's efforts to streamline its cost structure, obtain highly allocated merchandise, manage inventory (+1% y/y in F4Q), and optimize promos. We raise our PO to \$225 (was \$190), based on 15-16x (was 14x) our F26E EPS of \$14.25 on F4Q beat and rising peer & market multiples.

Company Description

Dick's Sporting Goods, Inc is a full-line sporting goods retailer that offers a broad assortment of brand and private label sporting goods apparel, footwear, and equipment in a large box store format. The company also operates specialty standalone golf stores under the Golf Galaxy name and an Outdoor specialty store under the Field & Stream banner.

Investment Rationale

We rate DKS as Neutral, reflecting our outlook that near-term headwinds are partially offset by compelling valuation. We still see (1) improving footwear allocations from key vendors, (2) strong apparel momentum, led by exclusives, continued strength in key brands, and better segmented men's product, (3) strong omni-channel execution, and (4) strong momentum in higher-margin private label.

Price objective basis & risk

Dick's Sporting Goods (DKS)

Our PO of \$225 is based on 15-16x our F2026E EPS estimate of \$14.25 (the high end of its 5-year historical multiple range of 6-15X) given DKS could see continued normalization of spending on categories that outperformed during COVID-19 (incl. Outdoor apparel & equipment, bicycles, etc.).

Downside risks to our PO are weakening of the macro environment and rising gas prices, potential secular headwinds in the golf category, weaker traffic trends, higher-than-expected cost pressures and the risk of a more competitive pricing environment.

Equity Investment Rating Distribution: Global Group (as of 31 Dec 2023)

Coverage Universe	Count	Percent	Inv. Banking Relationships R1	Count	Percent
Buy	1895	53.62%	Buy	1083	57.15%
Hold	832	23.54%	Hold	454	54.57%
Sell	807	22.84%	Sell	383	47.46%

R1 Issuers that were investment banking clients of BofA Securities or one of its affiliates within the past 12 months. For purposes of this Investment Rating Distribution, the coverage universe includes only stocks. A stock rated Neutral is included as a Hold, and a stock rated Underperform is included as a Sell.

FUNDAMENTAL EQUITY OPINION KEY: Opinions include a Volatility Risk Rating, an Investment Rating and an Income Rating. VOLATILITY RISK RATINGS, indicators of potential price fluctuation, are: A - Low, B - Medium and C - High. INVESTMENT RATINGS reflect the analyst's assessment of both a stock's absolute total return potential as well as its attractiveness for investment relative to other stocks within its Coverage Cluster (defined below). Our investment ratings are: 1 - Buy stocks are expected to have a total return of at least 10% and are the most attractive stocks in the coverage cluster; 2 - Neutral stocks are expected to remain flat or increase in value and are less attractive than Buy rated stocks and 3 - Underperform stocks are the least attractive stocks in a coverage cluster. An investment rating of 6 (No Rating) indicates that a stock is no longer trading on the basis of fundamentals. Analysts assign investment ratings considering, among other things, the 0-12 month total return expectation for a stock and the firm's guidelines for ratings dispersions (shown in the table below). The current price objective for a stock should be referenced to better understand the total return expectation at any given time. The price objective reflects the analyst's view of the potential price appreciation (depreciation).

Investment rating Total return expectation (within 12-month period of date of initial rating) Ratings dispersion guidelines for coverage cluster^{R2}

Buy	≥ 10%	≤ 70%
Neutral	≥ 0%	≤ 30%
Jnderperform	N/A	≥ 20%

R2Ratings dispersions may vary from time to time where BofA Global Research believes it better reflects the investment prospects of stocks in a Coverage Cluster.

INCOME RATINGS, indicators of potential cash dividends, are: 7 - same/higher (dividend considered to be secure), 8 - same/lower (dividend not considered to be secure) and 9 - pays no cash dividend. Coverage Cluster is comprised of stocks covered by a single analyst or two or more analysts sharing a common industry, sector, region or other classification(s). A stock's coverage cluster is included in the most recent BofA Global Research report referencing the stock.

BofA ESGMeter Methodology:

ESGMeter is a proprietary metric based on quantitative analysis and fundamental analyst inputs that reflects our assessment of a company's Environmental, Social and Governance-related attributes. The ESGMeter is intended to indicate a company's likelihood of experiencing stronger financial stability (higher return on equity and lower earnings and price volatility) over the next three years relative to peer group. There are three ESGMeter levels - Low, Medium, and High - which indicate whether a company has attributes most likely to translate into superior financial stability (in the case of a High level) or weaker financial stability (in the case of a Low level) over the next three years relative to its peer group. A Medium level suggests that a company exhibits ESG characteristics that are likely associated with financial stability results in line with its peer group over the next three years. Full details of our methodology, financial stability definition and disclaimers are available at BGMeter methodology. ESGMeter is not indicative of a company's future stock price performance and is not an investment recommendation or rating. ESGMeter is independent of the BofA Global Research fundamental equity analyst's investment rating, volatility risk rating, income rating or price objective for that company.
