# No change to EPS outlook

Regions Financial-RF shares reacted positively to 4Q23 results (on a rare positive day for bank stocks this earnings season) with core EPS of \$0.51, beating our/cons. \$0.47/0.48 ests. Beat driven by higher PPNR and lower tax rate. While FY24 NII guidance came in lighter (-4% vs. our pre-4Q forecast), lower expenses (-2%) brings PPNR generally in line. CET1 ratio -10bp QoQ to 10.2% (8.2% incl. MTM bond losses). Desire to manage CET1 ratio near 10% should mean continued capital deployment (we assume buybacks throughout 2024). At 10.3x 2024e EPS and 1.6x YE24e TBV vs. 16% ROTCE forecast (5.4% dividend yield), we see risk/reward as balanced. Maintain Neutral rating.

# NIM set to rebound to 3.60-4.00% range

NII expected to fall 3-5% QoQ in 1Q24, FY24 NII between \$4.7-4.8bn (vs. \$5.3bn FY23) assuming 4 rate cuts. More cuts seen as better for deposit betas on the way down. FY24 NIM expected to average ~3.50% (vs. 3.60% 4Q23) due to remixing of \$2-3bn in low cost deposits by mid-2024. Mgmt. expects to exit 2024 with a NIM of ~3.60% and to maintain 3.60-4.00% range given \$20bn in hedges/yr (+ve in down rate backdrop), higher reinvestment rates (\$12-14bn/yr in fixed rate assets expected to reprice by +200-250bp), slower deposit mix-shift. We forecast FY24 NII -11.5% YoY, NIM of 3.51%.

# **Credit normalizing**

Credit normalization continued with NPLs +17bp QoQ to 0.82% of loans, driven by downgrades within higher risk industries (consumer, trucking, healthcare, office, senior housing). Core NCOs (ex-GreenSky loan sale) fell 1bp QoQ to 39bp. Mgmt. guiding for NCOs in the 40-50bp range for FY24 or inline with the 46bp average pre-pandemic (2013-2019). SNC portfolio down \$1.1bn QoQ, although mgmt. noted the relationship nature of these loans ( $2/3^{rd}$  of capital markets revenue tied to SNC book,  $3/4^{th}$  of SNC relationships generated fees/deposits). Office CRE balances fell 7.5% QoQ, reserves +120bp to 4.3% of loans. We forecast FY24 credit provisioning costs of \$700mn.

# Capital flexibility

RF's capital position to serve as a positive differentiator relative to peers, allowing for self-help (buybacks), pursue inorganic opportunities (purchased servicing rights on \$6.2bn in residential mortgages in 3Q23) while providing the optionality to restructure the bond book. During today's call mgmt. noted that it was evaluating repositioning of the bond book (\$28.9bn; duration: ~4.5yrs) but was yet to make a final decision.

## **Company Sector**

Banks-US Regionals

## **Company Description**

Regions is a large cap regional bank based in the Southeast with more than \$150 billion in assets. Headquartered in Birmingham Alabama, the company has over 1,800 branches and a leading market share in Alabama, Tennessee and Mississippi. The company's lending portfolio focuses primarily on C&I, residential mortgages, home equity and commercial mortgage.

## **Investment Rationale**

We view the risk/reward as balanced as strong expense management and recent balance sheet actions (derisking/hedging program) offset the potential for elevated credit losses.

# Price objective basis & risk

## Regions Financial (RF)

Our \$19 PO is based on 50%/50% weighting between our 2024e EPS and 2024e TBV. We assign 12.0x/1.4x multiples respectively, below the bank's 5 year pre pandemic median of 12.3x/1.5x given heightened uncertainty surrounding EPS/ROTCE outlooks, owing to the macro backdrop.

Downside risks to our PO: higher than expected credit losses, greater than expected revenue pressure, regulatory changes that would impact growth/profitability, greater than anticipated operating losses due to check fraud.

Hold	832	23.54%	Hold	454	54.57%
Sell	807	22.84%	Sell	383	47.46%

R1 Issuers that were investment banking clients of BofA Securities or one of its affiliates within the past 12 months. For purposes of this Investment Rating Distribution, the coverage universe includes only stocks. A stock rated Neutral is included as a Hold, and a stock rated Underperform is included as a Sell.

FUNDAMENTAL EQUITY OPINION KEY: Opinions include a Volatility Risk Rating, an Investment Rating and an Income Rating. VOLATILITY RISK RATINGS, indicators of potential price fluctuation, are: A - Low, B - Medium and C - High. INVESTMENT RATINGS reflect the analyst's assessment of both a stock's absolute total return potential as well as its attractiveness for investment relative to other stocks within its Coverage Cluster (defined below). Our investment ratings are: 1 - Buy stocks are expected to have a total return of at least 10% and are the most attractive stocks in the coverage cluster; 2 - Neutral stocks are expected to remain flat or increase in value and are less attractive than Buy rated stocks and 3 - Underperform stocks are the least attractive stocks in a coverage cluster. An investment rating of 6 (No Rating) indicates that a stock is no longer trading on the basis of fundamentals. Analysts assign investment ratings considering, among other things, the 0-12 month total return expectation for a stock and the firm's guidelines for ratings dispersions (shown in the table below). The current price objective for a stock should be referenced to better understand the total return expectation at any given time. The price objective reflects the analyst's view of the potential price appreciation (depreciation).

# Investment rating Total return expectation (within 12-month period of date of initial rating) Ratings dispersion guidelines for coverage cluster<sup>R2</sup>

Buy	≥ 10%	≤ 70%
Neutral	≥ 0%	≤ 30%
Inderperform	N/A	≥ 20%

R2Ratings dispersions may vary from time to time where BofA Global Research believes it better reflects the investment prospects of stocks in a Coverage Cluster.

INCOME RATINGS, indicators of potential cash dividends, are: 7 - same/higher (dividend considered to be secure), 8 - same/lower (dividend not considered to be secure) and 9 - pays no cash dividend. Coverage Cluster is comprised of stocks covered by a single analyst or two or more analysts sharing a common industry, sector, region or other classification(s). A stock's coverage cluster is included in the most recent BofA Global Research report referencing the stock.

Taiwan Readers: Neither the information nor any opinion expressed herein constitutes an offer or a solicitation of an offer to transact in any securities or other financial instrument. No part of this report may be used or reproduced or quoted in any manner whatsoever in Taiwan by the press or any other person without the express written consent of BofA Securities. This document provides general information only, and has been prepared for, and is intended for general distribution to, BofA Securities clients. Neither the information nor any opinion expressed constitutes an offer or an invitation to make an offer, to buy or sell any securities or other financial instrument or any derivative related to such securities or instruments (e.g., options, futures, warrants, and contracts for differences). This document is not intended to provide personal investment advice and it does not take into account the specific investment objectives, financial situation and the particular needs of, and is not directed to, any specific person(s). This document and its content do not constitute, and should not be considered to constitute, investment advice for purposes of ERISA, the US tax code, the Investment Advisers Act or otherwise. Investors should seek financial advice regarding the appropriateness of investing in financial instruments and implementing investment strategies discussed or recommended in this document and should understand that statements regarding future prospects may not be realized. Any decision to purchase or subscribe for securities in any offering must be based solely on existing public information on such security or the information in the

prospectus or other offering document issued in connection with such offering, and not on this document.

Securities and other financial instruments referred to herein, or recommended, offered or sold by BofA Securities, are not insured by the Federal Deposit Insurance Corporation and are not deposits or other obligations of any insured depository institution (including, Bank of America, N.A.). Investments in general and, derivatives, in particular, involve numerous risks, including, among others, market risk, counterparty default risk and liquidity risk. No security, financial instrument or derivative is suitable for all investors. Digital assets are extremely speculative, volatile and are largely unregulated. In some cases, securities and other financial instruments may be difficult to value or sell and reliable information about the value or risks related to the security or financial instrument may be difficult to obtain. Investors should note that income from such securities and other financial instruments, if any, may fluctuate and that price or value of such securities and instruments may rise or fall and, in some cases, investors may lose their entire principal investment. Past performance is not necessarily a guide to future performance. Levels and basis for taxation may change.

This report may contain a short-term trading idea or recommendation, which highlights a specific near-term catalyst or event impacting the issuer or the market that is anticipated to have a short-term price impact on the equity securities of the issuer. Short-term trading ideas and recommendations are different from and do not affect a stock's fundamental equity rating, which reflects both a longer term total return expectation and attractiveness for investment relative to other stocks within its Coverage Cluster. Short-term trading ideas and recommendations may be more or less positive than a stock's fundamental equity rating.

BofA Securities is aware that the implementation of the ideas expressed in this report may depend upon an investor's ability to "short" securities or other financial instruments and that such action may be limited by regulations prohibiting or restricting "shortselling" in many jurisdictions. Investors are urged to seek advice regarding the applicability of such regulations prior to executing any short idea contained in this report.

Foreign currency rates of exchange may adversely affect the value, price or income of any security or financial instrument mentioned herein. Investors in such securities and instruments, including ADRs, effectively assume currency risk.

BofAS or one of its affiliates is a regular issuer of traded financial instruments linked to securities that may have been recommended in this report. BofAS or one of its affiliates may, at any time, hold a trading position (long or short) in the securities and financial instruments discussed in this report.

BofA Securities, through business units other than BofA Global Research, may have issued and may in the future issue trading ideas or recommendations that are inconsistent with, and reach different conclusions from, the information presented herein. Such ideas or recommendations may reflect different time frames, assumptions, views and analytical methods of the persons who prepared them, and BofA Securities is under no obligation to ensure that such other trading ideas or recommendations are brought to the attention of any recipient of this information. In the event that the recipient received this information pursuant to a contract between the recipient and BofAS for the provision of research services for a separate fee, and in connection therewith BofAS may be deemed to be acting as an investment adviser, such status relates, if at all, solely to the person with whom BofAS has contracted directly and does not extend beyond the delivery of this report (unless otherwise agreed specifically in writing by BofAS). If such recipient uses the services of BofAS in connection with the sale or purchase of a security referred to herein, BofAS may act as principal for its own account or as agent for another person. BofAS is and continues to act solely as a broker-dealer in connection with the execution of any transactions, including transactions in any securities referred to herein.

## BofA ESGMeter Methodology:

ESGMeter is a proprietary metric based on quantitative analysis and fundamental analyst inputs that reflects our assessment of a company's Environmental, Social and Governance-related attributes. The ESGMeter is intended to indicate a company's likelihood of experiencing stronger financial stability (higher return on equity and lower earnings and price volatility) over the next three years relative to peer group. There are three ESGMeter levels - Low, Medium, and High - which indicate whether a company has attributes most likely to translate into superior financial stability (in the case of a High level) or weaker financial stability (in the case of a Low level) over the next three years relative to its peer group. A Medium level suggests that a company exhibits ESG characteristics that are likely associated with financial stability results in line with its peer group over the next three years. Full details of our methodology, financial stability definition and disclaimers are available at BofA ESGMeter methodology. ESGMeter is not indicative of a company's future stock price performance and is not an investment recommendation or rating. ESGMeter is independent of the BofA Global Research fundamental equity analyst's investment rating, volatility risk rating, income rating or price objective for that company.
