

Seagate Technology

HDD market inflecting; HAMR drives next leg of profitability; PO to \$100

Reiterate Rating: BUY | PO: 100.00 USD | Price: 89.17 USD

Fundamentals bottoming out; STX gaining momentum

We raise our PO to \$100 on shares of Seagate Technology (STX) given (1) Mozaic platform launching 3TB disks, (2) HAMR 3+TB/disk ramp in 2024 and planned launch of 4+TB/disk in C2H25, (3) Margin improvement driven by OP leverage at higher revenue (4) Higher peak EPS driven by recovering revs, higher GMs and solid OpEx management. STX rev came in at \$1.56bn, above mid-point of company's guide. F3Q rev guide of \$1.65bn came in slightly above consensus and OP margin guide of low-double digits shows STX's strong OP leverage as revenue increases. Despite macro headwinds, we reiterate Buy on secular demand trends from Cloud, rev and margin recovery from trough levels and path to higher capacity HAMR HDDs.

End-markets are inflecting; Rev guide +6% q/q

STX's end-markets show early signs of a recovery in F2Q24. Mgmt. noted the Mass Capacity end-market (led by improving cloud-nearline demand) revenue increased 4% q/q while Legacy rev increased 17% q/q (seasonal consumer strength). Non-HDD rev was also up 8% q/q, driven by improved SSD demand. Mgmt guided rev for the March qtr to increase +6% q/q driven by a volume ramp and beginning shipments of HAMR drives.

Industry structurally better; inventory stabilizing

STX noted that a gradual recovery in the US cloud market and stabilizing trends in Enterprise OEM demand but China remains weak and the video and imaging (VIA) market also remains soft. Mix-adjusted pricing remains favorable and we expect margins to reach 30% faster than the company's expectation of achieving 30% GMs at a rev level of 20% below last peak. Underutilization charges will marginally increase (given ramp of HAMR) but GMS should continue to increase q/q through C24.

Adjusting estimates; PO raised to \$100; Capital allocation

Our F24 rev/EPS goes to 6.7bn/0.99 from 6.6bn/0.68. Our PO moves to 100 (from 87) on 12x C25 EPS of 8.36 (was 11x on C25 EPS of 7.80. We use a higher multiple as growth and margins are quickly rerating higher). Mgmt. noted their focus for FCF is to maintain the dividend and retire 9500mn of debt. After the 9500mn has been retired the company will restart share repurchases.

Company Sector

IT Hardware

Company Description

Seagate Technology (STX) designs, manufactures and markets hard disk drives for use in enterprise storage, servers, desktops, laptop computers, and other consumer electronic devices. It also has a growing solid state drive and storage systems portfolio. The company sells its products directly to OEMs, as well as distributors and retailers, and its production capabilities are vertically integrated.

Investment Rationale

We expect revenue and earnings to inflect higher as legacy market headwinds become smaller and mass capacity needs increase net of any cannibalization from Flash. We expect overall industry margins to improve and strong shareholder returns to continue. We rate STX Buy.

FCF: Free Cash Flow

Price objective basis & risk

Seagate Technology (STX)

Our PO of \$100 is based on 12x our C2025E EPS estimate of \$8.36. This multiple is towards the higher end of the historical P/E range of 7x-13x, and is warranted in our view as earnings momentum turns positive and peak earnings can be higher than historical peaks. Earnings are at a cyclically historic low and hence we look out to C25 for a more normalized earnings power of the company. The multiple balances near-term headwinds against the return of a more rational HDD industry and back to revenue and EPS growth.

Downside risks to our price objective are: (1) further unit declines in desktops and notebooks, (2) worse than expected industry pricing, (3) increased usage of NAND flash, (4) share loss to WDC in the enterprise HDD market, and (5) degradation of cash position and potential violation of credit facility covenants. Upside risks are: (1) significant pickup in high capacity/nearline HDDs, which could drive ASPs and gross margin higher, (2) improved technological advantage over NAND flash so as to reduce SSD penetration, (3) consumer PC refresh cycle, and (4) improved free cash flow generation.

Enterprise Value / Sales	EV = Current Share Price × Current Shares + Minority Equity + Net Debt +	Sales
	Other LT Liabilities	
EV / EBITDA	Enterprise Value	Basic EBIT + Depreciation + Amortization

Manethod suis the set of BofA Global Research standard measures that serve to maintain global consistency under three broad headings: Business Performance, Quality of Earnings, and validations. The key features of iQmethod are: A consistently structured, detailed, and transparent methodology. Guidelines to maximize the effectiveness of the comparative valuation process, and to identify some common pitfalls.

Rediatabase is our real-time global research database that is sourced directly from our equity analysts' earnings models and includes forecasted as well as historical data for income statements, balance sheets, and cash flow statements for companies covered by BofA Global Research.

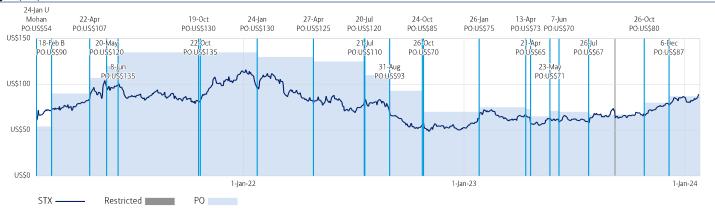

*IQ*profileSM, *IQ*methodSM are service marks of Bank of America Corporation. *IQ*database[®] is a registered service mark of Bank of America Corporation.

Seagate (STX) Price Chart

B: Buy, N: Neutral, U: Underperform, PO: Price Objective, NA: No longer valid, NR: No Rating

The Investment Opinion System is contained at the end of the report under the heading "Fundamental Equity Opinion Key". Dark grey shading indicates the security is restricted with the opinion suspended. Medium grey shading indicates the security is under review with the opinion withdrawn. Light grey shading indicates the security is not covered. Chart is current as of a date no more than one trading day prior to the date of the report.

Equity Investment Rating Distribution: Technology Group (as of 31 Dec 2023)

Coverage Universe	Count	Percent	Inv. Banking Relationships R1	Count	Percent
Buy	215	53.09%	Buy	111	51.63%
Hold	97	23.95%	Hold	45	46.39%
Sell	93	22.96%	Sell	24	25.81%

Equity Investment Rating Distribution: Global Group (as of 31 Dec 2023)

Coverage Universe	Count	Percent	Inv. Banking Relationships R1	Count	Percent
Buy	1895	53.62%	Buy	1083	57.15%
Hold	832	23.54%	Hold	454	54.57%
Sell	807	22.84%	Sell	383	47.46%

R1 Issuers that were investment banking clients of BofA Securities or one of its affiliates within the past 12 months. For purposes of this Investment Rating Distribution, the coverage universe includes only stocks. A stock rated Neutral is included as a Hold, and a stock rated Underperform is included as a Sell.

FUNDAMENTAL EQUITY OPINION KEY: Opinions include a Volatility Risk Rating, an Investment Rating and an Income Rating. VOLATILITY RISK RATINGS, indicators of potential price fluctuation, are: A - Low, B - Medium and C - High. INVESTMENT RATINGS reflect the analyst's assessment of both a stock's absolute total return potential as well as its attractiveness for investment relative to other stocks within its Coverage Cluster (defined below). Our investment ratings are: 1 - Buy stocks are expected to have a total return of at least 10% and are the most attractive stocks in the coverage cluster; 2 - Neutral stocks are expected to remain flat or increase in value and are less attractive than Buy rated stocks and 3 - Underperform stocks are the least attractive stocks in a coverage cluster. An investment rating of 6 (No Rating) indicates that a stock is no longer trading on the basis of fundamentals. Analysts assign investment ratings considering, among other things, the 0-12 month total return expectation for a stock and the firm's guidelines for ratings dispersions (shown in the table below). The current price objective for a stock should be referenced to better understand the total return expectation at any given time. The price objective reflects the analyst's view of the potential price appreciation (depreciation).

Investment rating Total return expectation (within 12-month period of date of initial rating) Ratings dispersion guidelines for coverage cluster^{R2}

Buy	≥ 10%	≤ 70%
Neutral	≥ 0%	≤ 30%
Jnderperform	N/A	≥ 20%

R2Ratings dispersions may vary from time to time where BofA Global Research believes it better reflects the investment prospects of stocks in a Coverage Cluster.

INCOME RATINGS, indicators of potential cash dividends, are: 7 - same/higher (dividend considered to be secure), 8 - same/lower (dividend not considered to be secure) and 9 - pays no cash dividend. Coverage Cluster is comprised of stocks covered by a single analyst or two or more analysts sharing a common industry, sector, region or other classification(s). A stock's coverage cluster is included in the most recent BofA Global Research report referencing the stock.

Price Charts for the securities referenced in this research report are available on the Price Charts website, or call 1-800-MERRILL to have them mailed.

BofAS or one of its affiliates acts as a market maker for the equity securities recommended in the report: Seagate.

BofAS or an affiliate was a manager of a public offering of securities of this issuer within the last 12 months: Seagate Technology.

The issuer is or was, within the last 12 months, an investment banking client of BofAS and/or one or more of its affiliates: Seagate Technology.

BofAS or an affiliate has received compensation from the issuer for non-investment banking services or products within the past 12 months: Seagate Technology,

The issuer is or was, within the last 12 months, a non-securities business client of BofAS and/or one or more of its affiliates: Seagate Technology.

BofAS or an affiliate has received compensation for investment banking services from this issuer within the past 12 months: Seagate Technology.

BofAS or an affiliate expects to receive or intends to seek compensation for investment banking services from this issuer or an affiliate of the issuer within the next three months: Seagate Technology

Taiwan Readers: Neither the information nor any opinion expressed herein constitutes an offer or a solicitation of an offer to transact in any securities or other financial instrument. No part of this report may be used or reproduced or quoted in any manner whatsoever in Taiwan by the press or any other person without the express written consent of BofA Securities. This document provides general information only, and has been prepared for, and is intended for general distribution to, BofA Securities clients. Neither the information nor any opinion expressed constitutes an offer or an invitation to make an offer, to buy or sell any securities or other financial instrument or any derivative related to such securities or instruments (e.g., options, futures, warrants, and contracts for differences). This document is not intended to provide personal investment advice and it does not take into account the specific investment objectives, financial situation and the particular needs of, and is not directed to, any specific person(s). This document and its content do not constitute, and should not be considered to constitute, investment advice for purposes of ERISA, the US tax code, the Investment Advisers Act or otherwise. Investors should seek financial advice regarding the appropriateness of investing in financial instruments and implementing investment strategies discussed or recommended in this document and should understand that statements regarding future prospects may not be realized. Any decision to purchase or subscribe for securities in any offering must be based solely on existing public information on such security or the information in the prospectus or other offering document issued in connection with such offering, and not on this document.

Securities and other financial instruments referred to herein, or recommended, offered or sold by BofA Securities, are not insured by the Federal Deposit Insurance Corporation and are not

deposits or other obligations of any insured depository institution (including, Bank of America, N.A.). Investments in general and, derivatives, in particular, involve numerous risks, including, among others, market risk, counterparty default risk and liquidity risk. No security, financial instrument or derivative is suitable for all investors. Digital assets are extremely speculative, volatile and are largely unregulated. In some cases, securities and other financial instruments may be difficult to value or sell and reliable information about the value or risks related to the security or financial instrument may be difficult to obtain. Investors should note that income from such securities and other financial instruments, if any, may fluctuate and that price or value of such securities and instruments may rise or fall and, in some cases, investors may lose their entire principal investment. Past performance is not necessarily a guide to future performance. Levels and basis for taxation may change.

This report may contain a short-term trading idea or recommendation, which highlights a specific near-term catalyst or event impacting the issuer or the market that is anticipated to have a short-term price impact on the equity securities of the issuer. Short-term trading ideas and recommendations are different from and do not affect a stock's fundamental equity rating, which reflects both a longer term total return expectation and attractiveness for investment relative to other stocks within its Coverage Cluster. Short-term trading ideas and recommendations may be more or less positive than a stock's fundamental equity rating.

BofA Securities is aware that the implementation of the ideas expressed in this report may depend upon an investor's ability to "short" securities or other financial instruments and that such action may be limited by regulations prohibiting or restricting "shortselling" in many jurisdictions. Investors are urged to seek advice regarding the applicability of such regulations prior to executing any short idea contained in this report.

Foreign currency rates of exchange may adversely affect the value, price or income of any security or financial instrument mentioned herein. Investors in such securities and instruments, including ADRs, effectively assume currency risk.

BofAS or one of its affiliates is a regular issuer of traded financial instruments linked to securities that may have been recommended in this report. BofAS or one of its affiliates may, at any time, hold a trading position (long or short) in the securities and financial instruments discussed in this report.

BofA Securities, through business units other than BofA Global Research, may have issued and may in the future issue trading ideas or recommendations that are inconsistent with, and reach different conclusions from, the information presented herein. Such ideas or recommendations may reflect different time frames, assumptions, views and analytical methods of the persons who prepared them, and BofA Securities is under no obligation to ensure that such other trading ideas or recommendations are brought to the attention of any recipient of this information. In the event that the recipient received this information pursuant to a contract between the recipient and BofAS for the provision of research services for a separate fee, and in connection therewith BofAS may be deemed to be acting as an investment adviser, such status relates, if at all, solely to the person with whom BofAS has contracted directly and does not extend beyond the delivery of this report (unless otherwise agreed specifically in writing by BofAS). If such recipient uses the services of BofAS in connection with the sale or purchase of a security referred to herein, BofAS may act as principal for its own account or as agent for another person. BofAS is and continues to act solely as a broker-dealer in connection with the execution of any transactions, including transactions in any securities referred to herein.

BofA ESGMeter Methodology:

ESGMeter is a proprietary metric based on quantitative analysis and fundamental analyst inputs that reflects our assessment of a company's Environmental, Social and Governance-related attributes. The ESGMeter is intended to indicate a company's likelihood of experiencing stronger financial stability (higher return on equity and lower earnings and price volatility) over the next three years relative to peer group. There are three ESGMeter levels - Low, Medium, and High - which indicate whether a company has attributes most likely to translate into superior financial stability (in the case of a High level) or weaker financial stability (in the case of a Low level) over the next three years relative to its peer group. A Medium level suggests that a company exhibits ESG characteristics that are likely associated with financial stability results in line with its peer group over the next three years. Full details of our methodology, financial stability definition and disclaimers are available at BofA ESGMeter methodology. ESGMeter is not indicative of a company's future stock price performance and is not an investment recommendation or rating. ESGMeter is independent of the BofA Global Research fundamental equity analyst's investment rating, volatility risk rating, income rating or price objective for that company.
